

VISY-X – ATG SYSTEM FOR CONTINUOUS FILL LEVEL MONITORING

Highly RELIABLE and ACCURATE level measurements

ABOUT FAFNIR

Level sensors and systems, expertly engineered

FAFNIR are specialists in the development and manufacturing of high precision sensors and systems for monitoring and measuring fill levels in industrial environments

Quality German
Engineering

Unparalleled reliability
in all environments

Highest safety

Field tested across 1000s
of installations

VISY-X is an Automatic Tank Gauging system developed for the best possible fill level monitoring and to manage the processes on the forecourt easier. With its high precision for continuous monitoring of liquid levels and leakages, the VISY-X is an indispensable solution for petrol stations and oil depots.

VISY-X - FEATURES

VISY-X

Enhanced functionality

4 in 1 continuous measurement: bottom water, product level, temperature and density

Low Installation cost

Easy plug and play installation

High robustness and maintenance-free

Long lasting sensor made of 100% stainless steel sensors

ATEX

IECEX

Approved worldwide

ATEX, IECEx, OIML, EPA, NEPSI, CCC, PESO, CCoE, Inmetro, EAC and EAC-Ex

VISY-X is available for:

- ✓ Tank storage
- ✓ Tall tanks
- ✓ LPG
- and more...
