

## **Information according to Regulation (EC) No 1907/2006**

### **Overfill Prevention Sensor Testing Device type ME 6 ...**

#### **I Scope**

This document is intended to communicate information on substances of very high concern (SVHC) in articles in accordance with Article 33(1) of Regulation (EC) No 1907/2006 (REACH).

#### **II Substances of Very High Concern**

The overfill prevention sensor testing devices are articles in which lead (CAS number 7439-92-1) forms a part of the overfill prevention sensor testing devices.

#### **III Safe Use Instruction**

The substance of very high concern is bound in insoluble form. Thus, if the overfill prevention sensor testing devices are handled properly, there can be no release of the substance at any time. Risks exist only through swallowing and inhalation, which can be excluded with appropriate use. Safe use includes proper disposal.

#### **IV Registration and Notification of Substances in Articles**

According to Article 7(1)(b) and (3) of the Regulation, registration and notification is not required, as normal or reasonably foreseeable conditions of use, as described in Section III of this document, are assumed.
