

**Information according to Regulation (EC) No 1907/2006****Overfill Prevention Sensor type 81 D-Ex ... and 83 UV ...****I Scope**

This document is intended to communicate information on substances of very high concern (SVHC) in articles in accordance with Article 33 (1) of Regulation (EC) No 1907/2006 (REACH).

**II Substances of Very High Concern**

The overfill prevention sensors type 81 D-Ex ... are complex objects in which lead (CAS number 7439-92-1) forms a component of the overfill prevention sensors.

**III Safe Use Instruction**

The lead is bound in insoluble form in the brass and in the PTC thermistor. Thus, if the overfill prevention sensors is handled properly, there can be no release of lead at any time. Risks exist only through swallowing and inhalation, which can be excluded with appropriate use.
