

## **Information according to Regulation (EC) No 1907/2006**

### **Level Detector type LS 300 ...**

#### **I Scope**

This document is intended to communicate information on substances of very high concern (SVHC) in articles in accordance with Article 33 (1) of Regulation (EC) No 1907/2006 (REACH).

#### **II Substances of Very High Concern**

The level detector type LS 300 ... is a complex object in which lead (CAS number 7439-92-1) forms a component of the level detector.

#### **III Safe Use Instruction**

The lead is bound in insoluble form in the brass and in the PTC thermistor. Thus, if the level detector is handled properly, there can be no release of lead at any time. Risks exist only through swallowing and inhalation, which can be excluded with appropriate use.
